

# Gingerbread House Contest 2008 Template

**To build a house**

You will need 2 side walls, 1 front wall, 1 back wall and 2 roofs to make a gingerbread house.

**Note:**

These wall templates must be used for your gingerbread house entry to be accepted. You may resize (enlarge or shrink) the template if you wish.

The diagram illustrates three templates for gingerbread house components. On the right side, there are three vertically stacked rectangular shapes. The top one is labeled 'Side Wall'. The middle one is a pentagon with a pointed left side, labeled 'Front / Back'. The bottom one is labeled 'Roof'. On the left side of the diagram, there is a large rectangular area containing text instructions and a note. The entire diagram is enclosed in a thin black border.
